

Design-Build Special Systems | Network Powered Lighting | Enterprise-Level Technology Deployment

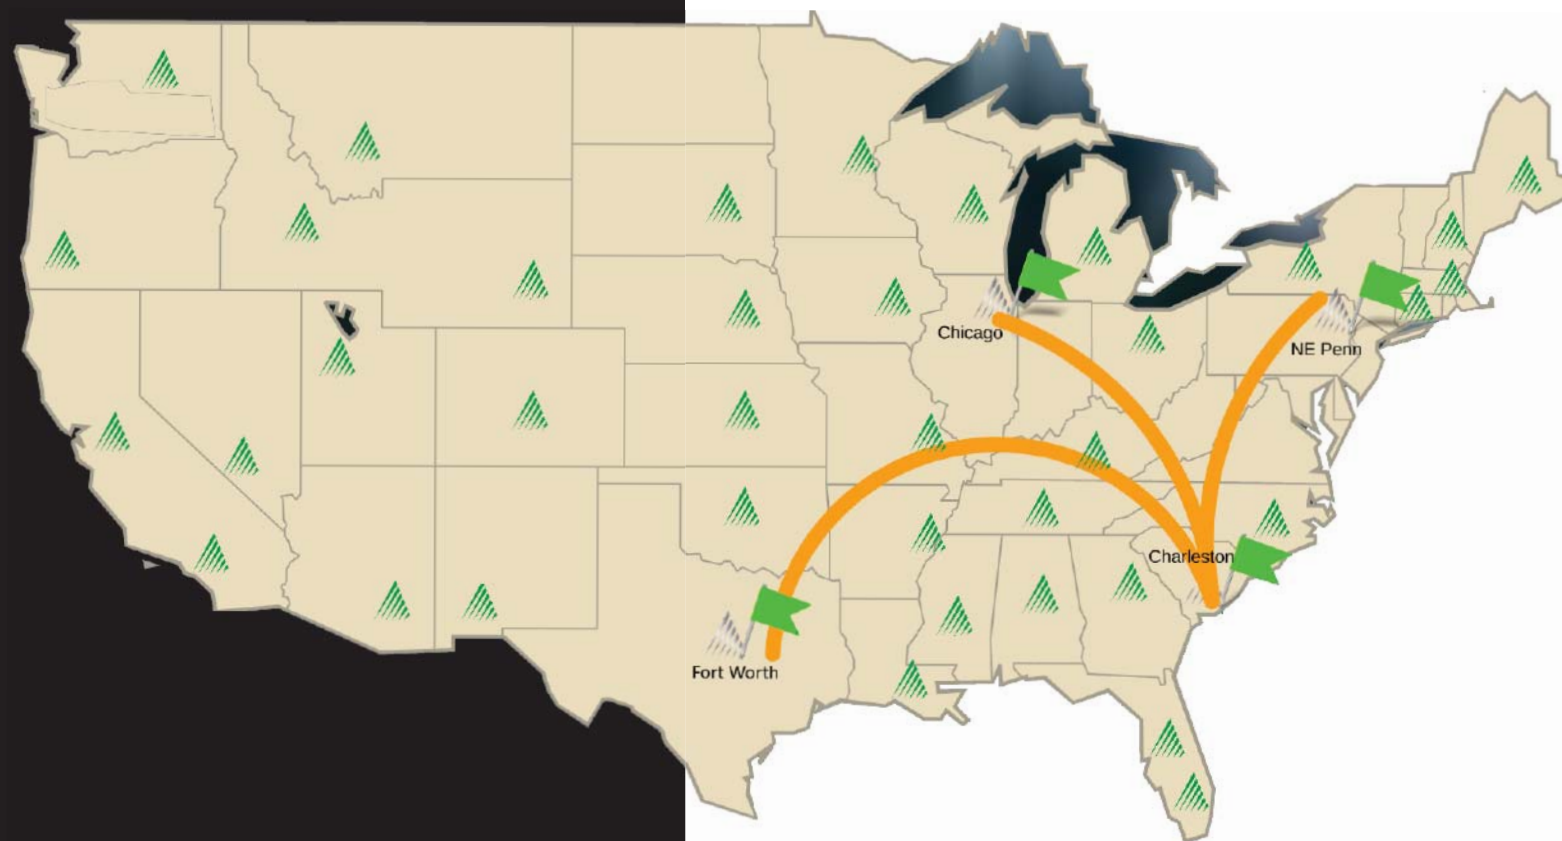

Terra Bridge
Innovations in Technology

The Industry Leader

Terra Bridge Innovations in Technology is the industry leading expert in special systems integration. With acute expertise in multiple-dwelling-unit and commercial developemtns, Terra Bridge provides complete design, installation, and configuration services. Terra Bridge adds value through its made-to-measure approach, balancing Function, Flexibility, Reliability, and Return on Investment.

A National Presence

with a HomeTown Level of Service

OUR VALUE IS
Our Owner-Oriented Approach
with 360-Degree Perspective

Infrastructure to Artwork

At Terra Bridge, we believe the appearance of your Special Systems installation reflects on its performance and use. We strive to consistently raise the industry-bar on pathway coordination, cable-dressing, color-coding, and labeling.

Through carrying out our mantra of Infrastructure to Artwork, our clients should be as excited to showcase their network closets as they are to showcase their lobbies.

Data Center Design Build	PBX & Voice Systems
LAN, WLAN Design Build	Network Powered Lighting
IDF, MDF Design Build	Security & Access Control
HSIA Design Build	Energy Mgmt Systems
Audio Visual Design Build	DAS Systems

NETWORK POWERED LIGHTING - GET READY FOR THE REVOLUTION

Terra Bridge Is the prominent torch-bearer of the next revolution in building technology - **Network Powered Lighting**, or Low Voltage Lighting. Imagine a 90% savings in electrical consumption. Imagine changing your bulbs once every 10-15 years. Imagine automated control of every light in your facility without the need of a complicated control system, 0 risk of fire or electrocution, **a real ROI** that pays for itself many times-over, and distributing data throughout your facility at every light fixture.

This is not a dream - it's the reality of Network Powered Lighting Solutions brought to you by Terra Bridge. This revolutionary technology is here. And it WILL be the new industry standard.

Get Ready for the Movement - **Contact Terra Bridge today.**

Structured Cabling (Data, Voice, Fiber, MATV, AV)

The design and integration of Traditional and Hybrid Broadband Network Systems are the foundation on which Terra Bridge is built. With thousands of projects across four continents under our belt, the knowledge bandwidth of Terra Bridge is unsurpassed in this department. We are experts at working with suppliers, manufacturers, and administrators to design and implement efficient systems without unnecessary redundancies.

Security and Access Control

Terra Bridge designs and builds smart security systems which feature a Collaborative Integration of Surveillance, Access Control, Alarms, Reporting, Monitoring, and Remote Oversight. Traditional Analog, Digital, and the latest IP/Network security technologies are available from Terra Bridge.

Equipment Procurement, Start-Up, and Go-Live

Terra Bridge leverages manufacturer relationships to provide excellent pricing on the procurement, start-up, and configuration of MATV HeadEnd, PBX HeadEnd, Switching, AV and more.

Your Company and Terra Bridge

Partners in Building Technology Design-Build

A key differentiating factor of Terra Bridge is its acute understanding and expertise in the integration of the multiple technology disciplines involved in Multiple Dwelling Unit (MDU) and Commerical Development.

From Voice-Data to Network Powered Lighting, WiFi to Audio Visual, HDTV, Access Control and more, Terra Bridge is a one-stop-shop for all technology needs in MDU or commercial properties, be they condo, multifamily, senior living, student housing, office, data center, or hospitality.

Terra Bridge **adds tremendous value** through handling the design, installation, start-up, and configuration of these systems, all under one umbrella.

And because our installation teams are cross-trained on multiple technology systems, installation costs are drastically reduced, while quality, consistency, and coordination are improved.

Terra Bridge By the Numbers

10	Years in Business
4,000	Completed Purchase Orders and Count
348	Major Projects Completed
3	Partners (Damian Randis, Alan Hill, Gary Womack)
60	Years' Experience among the partners
3.0Million	Average Annual Volume (\$)
10Million	Annual Capacity (\$)
Unlimted	Growth Potential
